Lemon, laurel, and rosemary essences refresh space, thoughts, and spirit!

NATURAL COSMETICS LINE OF LOŠINJ

The natural cosmetics line of Lošinj is prepared with multiple award-winning extra virgin olive oil, ecological essential oils and unrefined sea salt. Plant material used in the production of essential oils originates from the islands of the Cres-Lošinj archipelago, one of the most favourable areas for growing aromatic herbs. The natural cosmetics line of Lošinj includes:

LOŠINJ POMADE

– leaves your skin silky smooth, soft, shiny and rejuvenated after only two or three applications. It is an excellent remedy for dry skin, especially dry areas on hands, elbows and feet.

LOŠINJ BATH SALT

–for tired feet and whole body relaxation. It awakens a feeling of comfort and makes life juices flow.

LOŠINJ BODY SCRUB

– removes all impurities and dead skin cells from the surface of your skin, leaving it clean. Its ingredients provide nourishment and refreshment, stimulating blood flow and encouraging the natural lymphatic drainage. The skin becomes silky and sufficiently nourished, so there is no need for putting on body lotion after taking a shower. Since the main ingredient is fine sea salt, it is excellent for men because it easily dissolves in water on all skin areas.

Laurus Slow Spa (Wellness Hotel Aurora) Wellness offer

The specialties of Laurus Slow Spa centre are signature facial and body products. These unique creations were INSPIRED BY THE ISLAND OF LOŠINJ and are tailored to suit every client. In our treatments we use medicinal plants and herbal products mostly from local producers – ecological essential oils and hydrolats, fine and cold-pressed herbal oils, and raw materials such as ground apricot and olive kernels, various clays, algae... Most of the treatments were created especially for Aurora Wellness and cannot be found elsewhere. Our therapists prepare the products in the studio, just before the commencement of the treatment. In that way we avoid using preservatives and harmful additives that are found in most commercial cosmetics.

All treatments are performed manually. IT IS IMPORTANT TO STRESS THAT WE ARE NOT ASSOCIATED WITH ANY COSMETICS BRAND AND THAT THE PRODUCTS WE USE IN MASSAGES AND TREATMENTS ARE PREPARED ON OUR OWN AND ON THE LOCATION FOLLOWING SIMPLE RECIPES. All treatments include wellness rituals – a cup of homemade herbal tea is a little welcoming gift that will allow deep relaxation of our clients and a solid basis for the treatment that follows. Our specialty is also Outdoor Spa where we perform massages in the open air. Laurus Slow Spa of the Hotel Aurora Wellness Centre also includes a small aromatherapy studio where guests can make their own natural facial and body products under guidance of an aromatherapist. If you happen to be on the island, pay us a visit at the Hotel Aurora Wellness and try one of our treatments or massages such as Lošinj Signature Massage, Apoxyomenos Massage, Unije Rejuvenation, and others.
